## LIGHT IMPRESSIONS

On the following pages we would like to present to you our LIGHT IMPRESSIONS – very special lights with a unique lighting effect, outstanding design and innovative functions. Be inspired by the different products and series and discover the whole variety of our lighting portfolio with the LIGHT IMPRESSIONS.

## CHERTAN

With its extraordinary material mix of diecast aluminium housing and a stone base, the outdoor standing lamp CHERTAN stands out visually from other models. Equipped with a warm white 15W bulb with 120°-radiation angle including movement and twilight switch, the outdoor light is perfect for decorative use in entrance areas, on sidewalks or in the garden.

**733043** wall construction lamp | aluminium diecast | dark gray | WW | 3000 K | 570 lm | Ra > 90 | 12 W | EEI: A | IP54 | L x W x H: 170 x 72 x 450 mm | page 355

**733045** floor lamp | aluminium diecast | dark gray | WW | 3000 K | 640 lm | Ra > 90 | 12 W | EEI: A | IP54 | L x W x H: 170 x 72 x 1000 mm | page 380

**731113** floor lamp | aluminium diecast | dark gray | WW | 3000 K | 570 lm | Ra > 90 | 13,5 W | EEI: A | IP54 | L x W x H: 170 x 90 x 302 mm | page 380

## ARCTURUS II

The LED wall-mounted luminaire ARCTURUS II comes in a modern cube design [optionally also in an oblong shape] and is suitable for flexible outdoor lighting. The beam angle of the IP54 luminaire can be adjusted to between 0° and 90° via an integrated shadower to generate a different light pattern depending on the application requirements. Protected by the dark grey diecast aluminium housing, the two high-power LEDs, which produce a warm white, 5.5 W very bright light.

**731100** wall construction lamp | aluminium diecast | dark gray | WW | 3000 K | 200 lm | 5,5 W | EEI: A | IP64 | L x W x H: 140 x 105 x 145 mm | page 358

## AQUILAE

With AQUILAE, DEKO-LIGHT presents an LED wall-mounted luminaire for outdoor use that projects a particularly narrow, warm-white light beam [14°] onto the earth. In order to ensure that the Aquilae does not lose its full effect, the outdoor luminaire with its IP65 diecast aluminium housing should be mounted comparatively low above the earth in a rounded, discreet design.

**731111** wall construction lamp | aluminium diecast | dark gray | WW | 3000 K | 30 lm | 3 W | EEI: A | IP65 | H x Ø: 53 x 120 mm | page 343

## MAIA

Futuristic lines on walls and ceilings – MAIA series SMD LED-based effect lamps produce a warm white line light. Both models set visual accents and emphasize the surrounding architecture. Thanks to its slim and elegant shape, the IP65-certified MAIA series can be flexibly integrated not only outdoors but also indoors.

reddot award 2017  
winner

## LYNCIS

The LED wall-mounted luminaire LYNCS not only convinces with its sophisticated and filigree design (winner of the Red Dot Design Award 2017), but also with its outdoor features. The compact IP65-certified outdoor luminaire sits in a dark gray diecast aluminium housing and produces with its 96 LEDs, a 10-watt, an intense warm white light [500 lm], which integrates seamlessly into a wide variety of outdoor applications.

**731102** wall construction lamp | aluminium diecast | dark gray | WW | 3000 K | 500 lm | 10 W | EEL: A | IP65 | L x W x H: 300 x 142 x 315 mm | page 337

## HYDRAE

The HYDRAE LED wall-mounted luminaire illuminates various outdoor scenarios elegantly and efficiently. Developed for outdoor use, the designer luminaire made of combined diecast aluminium and stainless steel is suitable, among other things, for path lighting or as a decorative light element in the garden area. In addition to the wall-mounted version, the Hydrae product family also includes standing luminaires in various sizes.

**731103** wall construction lamp | stainless steel/aluminium diecast | silver coloured/dark gray | WW | 3000 K | 600 lm | Ra > 80 | 12,5 W | EEL: A++ | IP65 | L x W x H: 230 x 160 x 57 mm | page 355

**733052** floor lamp | stainless steel/aluminium diecast | silver coloured/dark gray | WW | 3000 K | 600 lm | Ra > 80 | 12,5 W | EEL: A++ | IP65 | L x W x H: 160 x 49 x 650 mm | page 381

**733053** floor lamp | stainless steel/aluminium diecast | silver coloured/dark gray | WW | 3000 K | 600 lm | Ra > 80 | 12,5 W | EEL: A++ | IP65 | L x W x H: 160 x 49 x 1000 mm | page 381

## SOLAR PREMIUM

The LED wall-mounted luminaire SOLAR PREMIUM impresses with its futuristic design and acts as an innovative and decorative outdoor light in the outdoor and garden area. Power is supplied via the integrated rechargeable battery, including the solar panel, so that no optically disturbing or expensive cables are required. In addition to the wall-mounted luminaire version, the solar product family also includes standing lamps in various sizes.

**731116** wall construction lamp | aluminium | dark gray |  
WW | 3200 K | 170 lm | Ra > 80 | 1,6 W | IP54 |  
L x W x H: 160,5 x 233,2 x 152 mm | page 350

**733046** floor lamp | aluminium | dark gray |  
WW | 3200 K | 170 lm | Ra > 80 | 1,6 W | IP54 |  
L x W x H: 200 x 151 x 1000 mm | page 383

## SEGIN

The LED wall-mounted luminaire SEGIN is suitable for versatile outdoor use and brightens the exterior and entrance areas of buildings and can also be used as a house number luminaire if required. In addition to the robust aluminium diecast housing, the Segin also has a round shading, which allows the light direction to be flexibly adapted to the existing application.

**731118** wall construction lamp | aluminium diecast | dark gray | WW | 3000 K | 70 lm | 13 W | EEI: A | IP65 | L x W x H x Ø: 223 x 130 x 105 x 105 mm | page 340

## SHERATAN

The SHERATAN is a battery-powered LED table lamp that can be charged via a built-in USB port. Thus, the SHERATAN is not only suitable for use as an accent light in living rooms, but also at events, such as gala and corporate events or garden parties. The 38 cm high casing with undulating lampshade and solid base plate made of sturdy, black die-cast aluminum [IP54] accommodates a 2.2 W LED bulb that generates a pleasant warm white light with 3,000 K and can be turned on and off via its integrated touch sensor.

**346008** dekorative Leuchte | aluminium diecast | black | WW | 3000 K | 154 lm | Ra > 80 | 2,2 W | IP54 | L x W x H x Ø: 100 x 100 x 380 x 115 mm | page 489

**346007** dekorative Leuchte | aluminium diecast | white | WW | 3000 K | 154 lm | Ra > 80 | 2,2 W | IP54 | L x W x H x Ø: 100 x 100 x 380 x 115 mm | page 489

**346006** dekorative Leuchte | aluminium diecast | black | WW | 3000 K | 154 lm | Ra > 80 | 2,2 W | IP54 | L x W x H x Ø: 100 x 100 x 380 x 110 mm | page 489

## PYXIDIS ANGULAR

The LED wall-mounted luminaire PYXIDIS surprises you with its particularly slim and high-quality construction with an elegant chrome surface and not without reason remind us of a wall torch. The designer interior light is based on a warm white COB LED and casts its glare-free light backwards indirectly, which creates unique light patterns and moods depending on the wall structure.

**341204** wall construction lamp | aluminium | silver coloured |  
WW | 3000 K | 330 lm | Ra >80 | 3,5 W | EEI: A+ | IP20 |  
L x W x H: 80 x 108,2 x 337,5 mm | page 144

**341199** wall construction lamp | aluminium diecast | white |  
WW | 3000 K | 330 lm | Ra >80 | 3,5 W | EEI: A+ | IP20 |  
L x W x H: 80 x 109 x 350 mm | page 144

### COB BACK LIGHT

Designed as a ceiling light for indoor use, the COB BACK LIGHT is equally suitable for classic and modern interiors and architectural projects. The 9-watt COB warm white LED with 48 ° beam angle sits in a white diecast aluminium housing and creates an additional, indirect light through the integrated reflector for even more atmosphere in the room.

**565224** recessed ceiling built-in lamp fixed | aluminium diecast | white | VVV | 3000/3000 K | 1000 lm | Ra > 80 | 9 W | EEL: A+ | IP20 | H x Ø: 89 x 110 mm | page 188

## COB 68 RGBW

The recessed ceiling luminaire COB 68 RGBW has a specially developed RGBW chip (RGB + warm white), which in combination with the integrated reflector ensures homogeneous colour mixing and enables various lighting scenes using various lighting control options. This makes the interior light in an elegant silver-coloured version with brushed aluminium suitable for use in living rooms as well as in bars, clubs and other environments that value flexible lighting.

**565336** recessed ceiling built-in lamp transversable | aluminium | silver coloured | RGB+WW | 500 lm | Ra > 80 | 8,5 W | EEL: A | IP20 | H x Ø: 46 x 78 mm | page 240

**565335** recessed ceiling built-in lamp transversable | aluminium | white | RGB+WW | 500 lm | Ra > 80 | 8,5 W | EEL: A | IP20 | H x Ø: 46 x 78 mm | page 240

## FLY

The FLY is a wall-mounted luminaire which is only available from DEKO-LIGHT based on a patented design by Johannes Tomm. With its extraordinary plaster construction, the FLY is individually designed and creates an indirect, glare-free light that fits easily into different rooms.

**341222** wall construction lamp | gypsum | white | WW |  
3000 K | 310 lm | Ra >80 | 3,5 W | EEI: A+ | IP20 |  
L x W x H: 240 x 123 x 170 mm | page 129

**341224** wall construction lamp | gypsum | white | WW |

L x W x H: 240 x 123 x 170 mm | page 129

Since 2001, Johannes Tomm designs lights for the interior and exterior as well as city furniture in his design studio in Munich.

## PLEIONE FOCUS

The PLEIONE FOCUS interior light is suitable for use with 3-phase 230V busbars and is particularly suitable for use in shops thanks to its flexibly adaptable lighting. For selective narrow or even illumination, the beam angle of the warm white LED luminaire can be infinitely adjusted by simply turning the specially developed focus lens in the range of 25° to 60°. The PLEIONE FOCUS is available in two colour versions and two watt sizes.

**707067** Stromschiene | aluminium diecast | white |

## CANOPUS

The silver-coloured LED wall-mounted luminaire CANOPUS for use in living areas combines exceptional design with an innovative dimming function. The latter changes the colour temperature in the range of 3,000 K [100%] to 2,000 K [0%]. In this way, the innovative interior light can be used to create a different, indirect lighting mood as required - from room lighting to stylish ambient light.

**341198** wall construction lamp | aluminium diecast | silver coloured | VVV | 2000-3000 K | 900 lm | Ra >90 | 16 W | EEI: A | IP20 | L x W x H: 140 x 115 x 365 mm | page 148

**341197** wall construction lamp | aluminium diecast | white | VVV | 2000-3000 K | 900 lm | Ra >90 | 16 W | EEI: A | IP20 | L x W x H: 140 x 115 x 365 mm | page 148

## CIRCINI

LED wall-mounted luminaire that generates a warm white, eye-friendly reading light with minimum space requirements. Via the movable gooseneck, the subtle, mat white reading light can be precisely aligned to the respective person – ideal for living areas or hotel rooms. For switching on and off, a light touch of the sensitive touch switch, which has been unobtrusively integrated into the shapely lamp head, is sufficient.

**341173** wall construction lamp | plastic | white | WW | 3000 K | 128 lm | Ra >80 | 2 W | EEI: A+ | IP20 | L x Ø: 560 x 60 mm | page 153

**341174** wall construction lamp | plastic | black | WW | 3000 K | 128 lm | Ra >80 | 2 W | EEI: A+ | IP20 | L x Ø: 560 x 60 mm | page 153

## KEOPS

Thanks to its simple design, the silver-coloured LED wall-mounted luminaire KEOPS blends seamlessly into a wide variety of interior interiors and provides flexible, indirect lighting accents. For this purpose, it ensures innovative dimming function of the interior light, on the basis of which the colour temperature in the range from 3,000 K [100%] to 2,000 K [0%] can be infinitely adjusted. In this way, the KEOPS creates a different, indirect light mood as needed – from room light to dignified ambient light.

**341160** wall construction lamp | aluminium diecast | silver coloured | WW | 2000-3000 K | 950 lm | Ra >90 | 13 W | EEL: A | IP20 | L x W x H: 170 x 155 x 115 mm | page 148

**341161** wall construction lamp | aluminium diecast | white | WW | 2000-3000 K | 950 lm | Ra >90 | 13 W | EEL: A | IP20 | L x W x H: 170 x 155 x 115 mm | page 148

## LIGHT POINT PERNO

The LIGHT POINT PERNO is a swivelling LED recessed ceiling luminaire that impresses with its compact and filigree shape. The 360° swivelling, silver interior light offers a tilt angle of 30° and is suitable for the flexible illumination of displays, shop windows and exhibitions in the furniture sector. The LIGHT POINT PERNO has an aluminium housing and is available in warm white and cool white version.

**448001** recessed ceiling built-in lamp transversable | aluminium diecast | silver coloured | VVV | 3000 K | 80 lm | Ra >80 | 2 W | EEL: A | IP20 | H x Ø: 15,7 x 39,6 mm | page 241

## MODULAR PANEL II

The MODULAR PANEL II is an LED stripe module system for the backlighting of advertising displays, stretch ceilings and numerous other surfaces. Depending on the application requirements, the module system is available in different versions with 4, 16 or 36 LEDs as well as in several versions [warm white, cool white, RGB or RGB + W]. In addition, the specially developed bracket allows convenient mounting.

**848016** LED Modular Panel II 2x2 | aluminium | white | RGB+WW | 3000 K | 50 lm | Ra >80 | 1,8 W | EEL: A | IP20 | L x W x H: 65 x 65 x 7 mm | page 674

## PENDANT LAMPS

Pendant lamps are not only used as a light source, but also as a decorative eye-catcher. It significantly increases the sense of well-being in a living space. Pendant and hanging lights thus provide double characteristics in the private area.

In industrial areas, pendant lights provide a precise illumination that meets the requirements of a monitored-based workspace. Even if some models are coupled to indirect light, the focus lies on a specific work area. For example, the light cone in the office and conference room is concentrated on the table, while in industries this may be the workbench or production line.

## BARRO II

- gypsum
- dimensions H x Ø: 250 x 70 mm
- socket H x Ø: 31 x 70 mm
- max. suspension: 1,20 m

## HIGHBAY NORMAE SERIES STRONG & EFFECTIVE

The energy-efficient Highbay lamps are ideal for hall lighting. Thanks to the adjustable mounting kit, the spotlights can be mounted at the desired angle of inclination. With the appropriate kit, there is also the option to hang them and, if necessary, to equip them with asymmetrical lenses.

## TRI PROOF

TriProof LED-IP65 humid room luminaires are equipped with LEDs in neutral white light color and consist in a polycarbonate housing and a satin-finished polycarbonate cover as one single piece. In three available lengths, it is appropriate for simple ceiling, wall or pendant mounting.

Ideal for industrial and private implementations, e.g. for the illumination under canopies, in cellar spaces, worksites, garages, industrial halls, etc. These luminaires are provided with a single electric connection with plug terminal, suitable for further wiring.

## TRI PROOF

## UNI SERIES MODERN & ELEGANT

Universal use for commercial and private applications – The Uni series includes high-quality surface-mounted lighting for wall and ceiling. The turning and pivoting lamp heads are equipped with 14 W warm white LED light sources [3.000 K] and available in simple as well as double version.

For flexible integration, the bezel rings and covers available in different finishes can be conveniently changed and, if required, combined with optional reflectors [15° - 50°], honeycomb filters and lens variants. The surface-mounted lighting of the UNI SERIES is delivered ready to be connected to 230V and is dimmable by leading edge or trailing edge.

## **WALL MOUNTED LAMPS**

Wall mounted lamps have a special effect by the interplay of direct and indirect light. They set bright accents in the room and can be used as individual style elements.

## INTRUDER II

- aluminium
- dimensions L x W x H: 230 x 85 x 80 mm
- socket L x W x H: 200 x 50 x 25 mm
- dimmable via optional light source
- suitable for light source of energy class A ++ to E

**382714**  silver coloured brushed **44,95 €**

## PERFIL

- aluminium
- dimensions L x W x H: 200 x 120 x 280 mm
- socket L x W x H: 260 x 60 x 20 mm
- dimmable via optional light source
- suitable for light source of energy class A ++ to E

**341748**  silver coloured brushed **47,95 €**

## TUBE

- glass
- dimensions L x W x H x Ø: 350 x 70 x 102 x 70 mm
- socket L x W x H: 100 x 40 x 25 mm
- dimmable via optional light source
- suitable for light source of energy class A ++ to E

**009620** ☐ white

**41,95 €**

## ROSADO

- glass
- dimensions L x W x H: 250 x 125 x 415 mm
- dimmable via optional light source
- suitable for light source of energy class A ++ to E

**341005** ☐ white

## PARALA/LARGA SERIES SLEEK & MODERN

The sleek surface mounted wall lamp PARALA / LARGA impresses with its straightforward design and a high-quality aluminium housing, which is available in two different surfaces. However, it does not only set the stage through its modern housing design, but also creates a pleasant atmosphere with its indirect warm white light source.

## OFFICE SERIES SMART & FLEXIBEL

Visual performance, visual comfort and visual ambience are elements, which are influenced through ergonomic and illumination at workplaces.

With the OFFICE THREE MOTION we present the most advanced business floorlamp. It combines all Features in one lamp and presents itself as versatile as never before. One Highlight is the special UGR value of  $<6$  – so it's almost antiglare. The special long extension arm attracts even more effective illumination on your desk.

## RECESSED CEILING BUILT-IN LAMPS FIXED

Fixed ceiling-recessed luminaires are not only very decent, but also very efficient room elements. Recessed in the ceiling, they can be implemented both for an ambient and full room illumination. Whether in the sanitary or living area, in the food service or in the office, they are used in multiple settings.

## ACRUX SERIES MANY OPPORTUNITIES

All the lamps of the ACRUX series have a special feature; with the switch on the back, the light temperature [3000, 4000, 6000 K] can be set prior to installation. This allows a great deal of flexibility in the planning phase.

The brightness can be adjusted individually via leading edge or trailing edge.

The supplied cover can be easily removed if necessary, so that the lamp can also be installed in its housing colour [white].

Diffusing lenses are built in, which reduce glare, creating a pleasant lighting situation.

## **RECESSED CEILING BUILT-IN LAMPS**

### **TRANSVERSABLE**

Transversable recessed ceiling built-in lamps are modest but efficient room elements with the particularity that the light cone has a flexible design. Recessed in the ceiling, they can be implemented both for ambient and full room lighting. Whether in the sanitary or living area, in the food service or in the office, they are used in multiple settings.

## CEILING BUILT-IN RING

- metal
- dimensions H x Ø: 22 x 94 mm
- dimmable via optional light source
- suitable for light source of energy class A ++ to E

## MODULARSYSTEM COB

The MODULAR built-in ceiling lamps family offers a wide variety of applications. Whether as good as invisible or with a frame – these modules are as flexible as you please.

By replacing the reflectors, different light cones can be generated and by the use of filters / diffusers you can individually select or retrofit your lighting mood. We offer the LED modules in warm and neutral white. So you have the option to adapt individual elements to the local requirements to create your perfect lighting situation.

## LIGHT BASE SERIES

The LIGHT BASE series offers plenty of possibilities for accentuating objects with the covers coming in two different versions and in three colours each.

The series is optimally suitable as orientation lighting and thus serves above all others the purpose of safety. The covers direct the light down to create a glare-free, yet effective lighting solution.

## LIGHT BASE COB INDOOR

## FURNITURE LAMPS

Specifically for the implementation on furniture items, the corresponding furniture-mounted luminaires meet the special requirements for cabinets, showcases and shelves. By the combination of low weight, quick mounting and innovative LED technology, this type of lamp provides an elegant lighting solution.

## **RAIL SYSTEM 3-PHASE**

Power rail systems are implemented in the industrial and private domain. They allow the flexible installation of luminaires. They offer a specifically installation-friendly variant for ceiling spotlights and pendant luminaires. The mounting of multiple lights is also possible without any additional cabling.

## PAR 30

## WALL MOUNTED LAMPS

Wall mounted lamps for wall and floor provide light, orientation and safety in your outdoor area. A movement sensor also helps saving energy.

## ZILLY DOWN

- stainless steel
- dimensions L x W x H x Ø: 115 x 115 x 107 x 60 mm
- socket L x W x H: 80 x 50 x 25 mm
- dimmable via optional light source
- suitable for light source of energy class A ++ to E

**731005**  silver coloured

**31,95 €**

## ZILLY II DOWN

- stainless steel
- dimensions L x W x H x Ø: 125 x 60 x 105 x 60 mm
- socket L x W x H: 100 x 43 x 22 mm
- dimmable via optional light source
- suitable for light source of energy class A ++ to E

**731008**  silver coloured

**42,95 €**

suitable  
standing lamp  
page 366  
**733002**

## ZILLY II DOWN MOTION

- stainless steel
- dimensions L x W x H x Ø: 150 x 68 x 106 x 60 mm
- socket L x W x H: 150 x 68 x 27 mm
- motion / twilight switch
- suitable for light source of energy class A to E

**731009**  silver coloured

**67,95 €**

## GRUMIUM

Modular, compact, with great effect – the GRUMIUM wall-mounted luminaire can be installed on terraces, on house walls or in the entrance area of living environments and, thanks to its optional covers with different designs, is a flexible universal solution for many applications. The fixed and energy-saving LEDs with a maximum of 10 watts are surrounded by a diffuser made of milky plastic and produce a pleasant warm white light with a luminous flux of 730lm. The outdoor luminaire GRUMIUM with its housing made of die-cast aluminum is available in angular and round design and has degree of protection IP54.

## GRUMIUM ANGULAR

- aluminium diecast
- dimensions L x W x H: 100 x 70 x 200 mm
- socket L x W x H: 95 x 15 x 195 mm
- power input: 11,00 W
- energy efficiency class [EEI] spectrum A ++ to E

## **WALL RECESSED LAMPS**

Modern wall recessed lamps are ideally suitable for setting atmospheric and professional light accents in outdoor applications.

### SIDE II WW

- aluminium diecast
- dimensions L x W x H: 171 x 106 x 65 mm
- dimmable via optional light source
- suitable for light source of energy class A ++ to E

**100028**  silver coloured mat **49,95 €**

### SIDE III LED RGB

- aluminium diecast
- dimensions L x W x H: 171 x 106 x 65 mm
- dimmable via optional controller
- power input: 3,50 W
- energy efficiency class [EEI] spectrum A ++ to E

**100238**  silver coloured mat  24 lm EEI: A **89,95 €**

suitable dimmers and controllers from page 684

## **SURFACE MOUNTED SPOTLIGHT**

The surface mounted spotlights were specifically designed for the garden and outdoor area, in compliance with the protection classes required for this purpose. Their swivel-mounted and rotating design provide an individual decorative illumination of plant and wall parts. Powerful floodlights are an additional tool for the illumination of large surfaces outdoors.

## TUBOR

## GROUND BUILT-IN LAMPS

Despite their high lighting forces, recessed floor luminaires offer a pleasant and decent ambient lighting. By the interaction of light, shadow and wall design, they accentuate artfully the architecture and the processed material.

## QUICK ROUND

- stainless steel
- dimensions H x Ø: 88 x 116 mm
- dimmable via optional light source
- suitable for light source of energy class A ++ to E

The Complete Set-series Sagittae in warm-white, RGB+ warm white is a ready-made LED profile for a simple mounting [rails must not be sealed at the own worksite].

## INFORMATIONS | ADVANTAGES

- set consists of: aluminium profile, built-in LED Stripe, cover, end caps and connection cable [ca. 1 m] incl. WEIPU plug
- cast profile according to protection class IP67
- switching power supply and controller are required separately
- fit for wall and floor mounting [fit for traffic], up to max. 1 ton [for a greater load we recommend our customised foam base as a damping means article 990095]

## SAMPLE APPLICATIONS

- mounting in cobble stone paths [entries, parkings, etc.]
- light line marking,
- civil engineering
- accent lighting
- decorative lighting

## FIXATION [NOT IN ASSORTMENT]

- Grout
- ceramic adhesive [elastic, frost-resistant]

## SAGITAE LED PROFILE COMPLETE SET IP67

- material: aluminium
- connection stripe: 2 cable [V-, V+]
- incl. 1m connection cable with WEIPU-plug
- dimmable via optional controller

## UNDERWATER LAMPS

Fountains or pool systems become more vital with LED underwater lamps for an optimal illumination full of atmosphere.

It is absolutely mandatory that you observe the correct installation/operating instructions for underwater lamps for the operation of electrical devices of protection class IP68 in water in accordance with DIN VDE 0100-702. The lamps may be placed at a max. depth under the water of 1m. Not suitable for chloride or saltwater.

## SNAPPER IWW

## WALL WASHER

Wall washers are a perfect fit for a light scenery of facades or other building elements. With the wide range of distinct colour nuances [RGB, warm and cold white], the architecture acquires its own specific lighting. By the longitudinal light bodies, each individual building part is highlighted over the whole surface.

## LINEAR LIGHT

When it comes to emphasizing or accentuating design elements in architecture or even consciously arousing emotions through the interplay of light and shadow, linear light is moving into the focus. The use of linear light involves the accentuated illumination of columns, ceilings, lines and edges. However, in the context of primary lighting, linear light is also becoming increasingly important.

## **LINEAR LIGHT SOLUTION OFFICE BUILDING LA CROIX ARCHITECTS IN STUTENSEE**

Increasingly, customers are turning to modern, open designs. In order to support the mostly clear geometrical design language of these buildings in the illumination and to meet the high demands of the respective customers, in these cases we usually do without the use of classic luminaires and recessed spotlights in favour of a linear lighting solution.

The illumination picks up on the geometry of the dominant entrance area and supports the distinctive stylistic idiom. Barely visible during the day, it sets the scene for the advanced element after sunset and directs visitors to the interior of the building.

Through the use of linear light, the basic shape of the structure is impressively emphasized, without disturbing the stylistic idiom and to come to the fore too obviously. In contrast to classic lighting solutions, the open, unobstructed view of the building remains uncluttered. In addition, the precisely set lighting elements convey the impression of a drawn three-dimensional spatial model - with the difference that here no pencil was used, but was "drawn" with light.

In order to create cove lighting in such a reduced manner and to completely dispense with visible installation openings which disturb the sense of space, it is absolutely necessary to involve the lighting designer early in the design and construction process. In this way, drivers and technology can be seamlessly integrated in the early stages of construction. Indirect lighting requires high wattage. Indirect lighting requires high wattage. Therefore, the LED strips used can only be installed with appropriate profiles to dissipate the heat generated while ensuring long life.

In contrast to direct lighting from above or the left/right, the indirect lighting on the large-format mirror creates an additional depth dimension. In addition, modern lighting and control systems make it possible to individually adjust the light colour to simulate daylight situations - for example for daily make-up. In addition, the warm colour temperature of 3,000K in wellness applications provides a cosy atmosphere.

As linear light in this design is used as a location-related design element, additional floor or pendant luminaires set accents that can be flexibly positioned in the room. The ground recessed spot in front of the olive tree has a similar effect. Especially in combination with large glass surfaces, outdoor areas and courtyards can become a "black hole" without adequate illumination.

## ALUMINUM PROFILES

ALUMINUM PROFILES by REPROFIL stand for innovative and uncompromising products in a timeless design. They are developed with highest precision. By their easy installation and small dimensions, rigid and flexible LED Stripes can be easily implemented. Whether for wall, ceiling or floor sections, they are perfect for direct and indirect lighting in private as well as commercial areas.

## ASSEMBLY FOR PROFILES & STRIPES

Upon request, we provide our products individually to measure.  
Prices are available on request.

### 989100 – Service-Pack I – Cutting Profile

Cutting Profile, tolerance  $\pm 1$  mm | awing losses 4mm

### 989200 – Service-Pack II – Cutting Cover

Cutting Cover, tolerance  $\pm 1$  mm | awing losses 4mm

### 989300 – Service-Pack III – Cutting LED-Stripe

Cutting LED-Stripe, Soldering a connection line  
[Dimensions & quantity, strip length & possibility to cut]

### 989400 – Service-Pack IV – Assembly complete luminaire

[requires service pack I, II, III]

Complete lamp assembly of profile, LED-Stripe 1 -2 | 3 - 4 channel, 12V | 24V,  
Cover, end caps, bore in profile or end cap for cable passage.

**Please take the cutting dimension of the LED-Stripe segment length plus 3 cm  
or the junction box into account.** Lengthwise tolerance  $\pm 3$ mm

**Cables** – Maximum cable lengths for LED stripe supply lines

12 V max. 3 m to 100 W of power

24 V max. 5 m to 100 W of power

[Billing takes place according to meters per order]

<b>989305</b> 1 channel	Connecting cable 1 channel
<b>989310</b> 2 channel	Connecting cable 2 channel
<b>989315</b> 3 - 4 channel	Connecting cable 3 - 4 channel
<b>989320</b> 1 - 4 channel	Connecting cable MINI 1 - 4 channel

### Options

<b>989301</b> Connecting cable	Attaching a 2nd connecting cable for further connection
<b>989302</b> Connecting line	Fixing of a connecting line between 2 stripe pieces, incl. solder points on the left and right. Original length of the stripe may not be exceeded by the individual parts.
<b>989450</b> IP extra charge	Process / Seal IP65 / Nano Stripes
<b>989900</b> RAL Painting	Coating the profiles in the desired RAL tone
Grouting	We offer different types of casting, the prices for which we have to determine individually. We look forward to your inquiry.

# HOMOGENEOUS PHOTOGRAPH

## How to obtain a homogeneous photograph

A homogeneous photograph is obtained in connection with a milky|40% cover with a matching LED Stripe. The [Pixel-Pitch] distance between the LEDs and the cover is decisive.

### The following rule of thumb applies:

The distance between the LED should be smaller than the distance between the LEDs to the cover.

We offer a wide assortment of most diverse LED Stripes, which have also a distinct Pixel-Pitch.

conventional LED Stripe Pixel-Pitch 33 mm

conventional LED Stripe Pixel-Pitch 16.7 mm

conventional LED Stripe Pixel-Pitch 4 mm

sideview in double LED Stripe Pixel-Pitch moved 8.4 mm

## Translucency / light passage

95% clear      75% mat      40% milky

## PAINT FINISH ACCORDING TO THE RAL COLOR SCHEME

You would like one of our profiles in your requested color? No problem! All Reprofil aluminum profiles are also available individually in your desired RAL color.

And that's how it works: Simply select your profile and complete it with the article „RAL painting“ (20030) including your specification of the RAL value. please note the minimum order quantity of 20 meters..

**989900** RAL Painting  
minimum order quantity of 20 meters  
Price on request.

## **SERIES AU-01** flat U-Profiles | Mounting Profiles for LED Stripes up to 16,3 mm width

## **SERIES AU-02** hight U-Profiles | Mounting Profiles for LED Stripes up to 21,3 mm width

### **INFORMATIONS | ADVANTAGES**

- in 4 colours and 4 different Lengths [1m | 2m | 3m | 4m]
- can be easily shortened according to the requirements
- high quality Aluminum PROFILES with high Form and fitting preciseness
- for the lighting of indoor areas
- IP20, not fit for traffic
- optimal adhesive surfaces for LED stripes
- PROFILE and cover offer protection by external effects
- passive cooling of LED stripes
- for longer life cycles
- homogeneous light effect, no blinding by fitted covers

### **FIXATION**

- Clamping brackets [optionally available]
- Mounting brackets [optionally available]
- Heat resistant double-sided tape [optionally available]
- Foam tape for irregular surfaces
- Countersunk screws [optionally available]
- Centre drilling aid: the PROFILE has a small inside slot

## **SERIES ET-01** flat T-Profiles | Mounting Profiles for LED Stripes up to 16,3 mm width

## **SERIES ET-02** hight T-Profiles | Built-in-Profile for LED Stripes up to 16,3 mm width

### **INFORMATIONS | ADVANTAGES**

- in 4 colours and 4 different Lengths [1m | 2m | 3m | 4m]
- can be easily shortened according to the requirements
- high quality Aluminum PROFILES with high Form and fitting preciseness
- for the lighting of indoor areas
- IP20, not fit for traffic
- optimal adhesive surfaces for LED stripes
- PROFILE and cover offer protection by external effects
- passive cooling of LED stripes for longer life cycles for longer life cycles
- homogeneous light effect, no blinding by fitted covers

### **FIXATION**

- fixation clampn [optionally available]
- Mounting adhesives [optionally available]
- heat-proof double-sided tape [optionally available]
- foam carrier for uneven surfaces
- flat head screw [optionally available]
- Centre drilling aid: the PROFILE has a small inside slot

## AH-01-20 H-Profiles | Mounting Profiles

for LED Stripes up to 21,3 mm width

### INFORMATIONS | ADVANTAGES

- Assembly/Support PROFILE [optionally available]
- easy assembly by snap-on
- anodized Aluminum and 2 different lengths [1m | 2m]
- can be easily shortened according to the requirements
- high quality Aluminum PROFILES with high Form and fitting preciseness
- for the lighting of indoor areas
- IP20, not fit for traffic
- optimal adhesive surfaces for LED stripes
- PROFILE and cover offer protection by external effects
- increased passive cooling of LED Stripes by additional cooling fins increasing the service life
- homogeneous light effect
- no glare by fitting covers

### FIXATION

- Assembly on support PROFILE [optionally available]
- the support PROFILE must be fixed to the base, for the easy engagement and release of the H PROFILE
- Mounting brackets [optionally available]
- Countersunk screws [optionally available]
- Centre drilling aid: the PROFILE has a small inside slot

## AV-03-12 Angular Profiles | Mounting Profiles for LED Stripes up to 13,3 mm width

### INFORMATIONS | ADVANTAGES

- Aluminum, anodized  
and 2 different lengths [1.25m | 2.5m]
- the special placement of the cover hides the PROFILE  
and it becomes nearly invisible
- can be easily shortened according to the requirements
- high quality Aluminum PROFILES with high form and  
fitting preciseness
- for the lighting of indoor areas
- IP20, not fit for traffic
- optimal adhesive surfaces for LED stripes
- PROFILE and cover offer protection by external effects
- passive cooling of LED Stripes increasing service life
- homogeneous light effect
- no glare by fitting covers

### FIXATION

- Mounting brackets [optionally available]
- Heat resistant double-sided tape [optionally available]
- Foam tape for irregular surfaces
- Countersunk screws [optionally available]
- Centre drilling aid: the PROFILE has a small inside slot

## **AL-01-10** Step-Profiles | Mounting Profiles for LED Stripes up to 11,3 mm width

## **AL-02-10** Step-Profiles | Mounting Profiles for LED Stripes up to 11,3 mm width

### **INFORMATIONS | ADVANTAGES**

- anodized Aluminum  
and 3 different lengths [1m | 1.5m | 3m]
- optical marking of steps and edges
- indirect edge lighting
- can be easily shortened according to the requirements
- high quality Aluminum profile with high form and fitting preciseness
- very robust anti-warping profile with a strength of 4.5 mm in the step surface
- for the lighting of indoor areas
- IP20, not fit for traffic
- optimal adhesive surfaces for LED stripes
- profile and cover offer protection
- by external effects
- passive cooling of LED Stripes increasing service life
- homogeneous light effect
- no glare by fitting covers

### **FIXATION**

- Profile must be positioned flat and screw-fastened to the base structure at least at an interval distance of 20 cm
- min 4.5 countersunk screws must be used
- Countersunk screws [optionally available]
- Centre drilling aid: the profile has a small inside slot if no load is placed on the profile or the passage of the same screw-fastening is not absolutely required
- Mounting brackets [optionally available]
- Heat resistant double-sided tape [optionally available]
- Foam tape for irregular surfaces

With the kind support of SH-Lichttechnik / Becks Reutlingen

## AM-02-10 Skirting boards | Mounting Profiles

for LED Stripes up to 11,3 mm width

- With two integrated cable ducts
- for all common cables with a max. Ø of 12mm
- suitable for power cables
- suitable for data cables
- in combination, always use shielded cables

## INFORMATIONS | ADVANTAGES

- in 2 colours with 3m length
- time-saving by pre-bores with counterbore [approx. every 29 cm in profile]
- two integrated cable ducts of approx. 20 x 10mm
- for cable entry a slot is milled at the beginning | end of the profile
- very robust anti-warping profile with wall strengths of 2 and 5mm
- can be easily shortened according to the requirements
- high quality Aluminum profiles with high Form and fitting preciseness
- for the lighting of indoor areas
- IP20, not fit for traffic
- optimal adhesive surfaces for LED stripes
- profile and cover offer protection
- by external effects

- passive cooling of LED stripes
- increasing service life
- homogeneous light effect
- no glare by fitting covers

## FIXATION

- Mounting brackets [optionally available]
- Countersunk screws [optionally available]
- Centre drilling aid:
- the profile has a small inside slot

## EL-02-10 Dry Construction Profiles | Mounting Profiles | Wall cove for LED Stripes up to 14 mm width

### INFORMATIONS | ADVANTAGES

- in 2 colours with 2 different lengths [1m | 2m]
- very time-saving in dry construction
- by covering wings no intensive and time-consuming machining of angles and slot required
- specially designed for dry construction | for the customary plasterboards with strength of 12.5mm and double panelling
- can be easily shortened according to the requirements
- high quality Aluminum profiles with high Form and fitting preciseness
- for the lighting of indoor areas
- IP20, not fit for traffic
- optimal adhesive surfaces for LED stripes
- profile and cover offer protection
- by external effects
- passive cooling of LED Stripes

- increasing service life
- homogeneous light effect
- no glare by fitting covers

### FIXATION

- Mounting brackets [optionally available]
- Heat resistant double-sided tape [optionally available]
- Foam tape for irregular surfaces
- Countersunk screws [optionally available]
- Centre drilling aid: the profile has a small inside slot
- Universal slot nut/longitudinal connector
- Slot nut with tension springs [optionally available]
- Mounting brackets [optionally available]
- the profile has a small inside slot

- no glare by fitting covers

## FIXATION EL-03-10

- Profile is to be fastened permanently onto the base, in order to avoid that the profile comes loose due to load on the wings due to the suspended
- cover/plate resting on it, so that it seat/tightness are guaranteed
- Countersunk screws [optionally available]
- Centre drilling aid:
- the profile has a small inside slot

### FIXATION ET-03-10

- Universal slot nut/longitudinal connector
- Slot nut with tension springs [optionally available]
- Mounting brackets [optionally available]
- Countersunk screws [optionally available]
- Centre drilling aid:
- the profile has a small inside slot

## EU-01-36 Dry Construction Profiles | Wall | Ceiling

for LED Stripes up to 36 mm width

### INFORMATIONS | ADVANTAGES

- Aluminum anodized with 3m length
- can be easily shortened according to the requirements
- homogeneous light effect
- high quality Aluminum PROFILE with high form and fitting preciseness
- IP20, not fit for traffic
- profile and cover offer protection by external effects
- passive cooling of LED Stripes increasing service life

### FIXATION

- optimised for installation with gypsum board panels
- easily plasterable due to protective inlay

**EV-02-08 | EV-02-12** Tile-Profiles | Mounting Profiles | Corner outside  
for LED Stripes up to 9,3 | 13,3 mm width

## INFORMATIONS | ADVANTAGES

- in up to 3 different looks and 2 different lengths [1.25m | 2.5m]
- designed for a tile strength of max. 10mm | 12mm
- can be easily shortened according to the requirements
- high quality Aluminum profile with high form and fitting preciseness
- for the lighting of indoor areas
- IP20, not fit for traffic
- optimal adhesive surfaces for LED stripes
- profile and cover offer protection by external effects
- passive cooling of LED Stripes increasing service life
- homogeneous light effect
- no glare by fitting covers

## FIXATION

- for optimal mounting a flexible tile adhesive and flexible nut grout is recommended
- the flexible tile adhesive must be applied with a notched trowel
- the surface should be kept clean and dust-free and treated with an adequate adhesive primer for an optimal and durable result

PLEASE Note: The tile profiles are only suitable for wet cells in combination with suitable IP stripes or special casting techniques. It is also recommended to create a water-impermeable finish at the top and bottom with an acrylic or silicone joint.

- further details on mounting or durable protection against sun, frost and water, see at the end of the chapter
- Mounting adhesives [optionally available], tile adhesives, concrete, grout
- for an optimal mounting in combination with tiles, a flexible tile adhesive and flexible nut grout is recommended
- the flexible tile adhesive must be applied with a notched trowel
- the surface should be kept clean and dust-free and treated with an adequate adhesive primer
- and durable result

**EU-01-12** IP-Profile | fit for traffic  
for LED Stripes up to 12,3 mm width

<b>975780</b>		1m	Aluminum	nature	<b>31,95 €</b>
<b>975781</b>		2m	Aluminum	nature	<b>63,95 €</b>

			Support profile for LED stripes		
<b>970762</b>		1,25m	Aluminum	nature	<b>4,95 €</b>

Fit for traffic up to max. 1 ton, for higher loads we recommend our foam base as a damping means.

Please note:  
For further details or durable protection against sun, frost and water, see page 610.

<b>Accessory for EU-01-12</b>					
<b>930104</b>		Natural stone sealant			<b>37,95 €</b>
		310ml cartridge, transparent for adhesion of cover			
<b>930103</b>		Sealant smoothing agent			<b>37,95 €</b>
		400ml dose, for a clean withdrawal of the sealant			
<b>990109</b>		Foam support			<b>6,95 €</b>
		126 x 2,6 x 3 cm			
		Plastic   Hard foam			

Attention Bulky items increased freight costs for items with a length higher than 2 m

**Covers** | Material: Makrolon [Polycarbonat]  
Material strength: 5mm  
Optimum light diffusion and extremely impact-resistant.  
**for EU-01-12**

### Caution! Please consider before mounting:

For an optimum and durable result, please consider the climate and weather effects before remounting.

#### Impact of sun:

Please consider the solar run before mounting. Permanent and intensive sun rays may damages the LED strip - also in switch-off condition. Each material expands and contracts again. Please remount the profiles under consideration of the temperature oscillations and the derived expansion co-efficients. Beware that the materials such as Aluminum, PMMA, PC and Macrolon [Profiles/Covers] can expand sig-nificantly at temperature variations, which has an impact on the sealing. **This is not a product defect but a normal physical process.**

#### Impact of water and frost:

Please check before mounting that after the assembly of the profile in rainy weather, no standing water is formed. Strong condensation water may form in case of inadequate machining and different temperatures. Water may also pen-etrate due to capillary effects. Standing or penetrating water or humidity may have a great impact on the sealing during frost and damage the LED stripe. We recommend that for the protection of the LED stripes you pour the profile half empty or fully empty [according to the stress and usage].

**Please be aware that we do not hold any liability for the machining or processing on your side, such as sealing positioning and application.**

## MOUNTING INSTRUCTION

- 1 for an optimal work surface the profile must be grease- and dust-free
- 2 glueing place the LED stripe on one side and press carefully in vertical direction part by part
- 3 Once the LED stripes have been installed, the cover is glued
- 4 Apply a continuous regular layer of nature stone sealant/silicon transparently on the complete surface of the profile until
- 5 a continuous closed adhering surface is provided. The sealant must not present any open spaces.
- 6 Insert the conical cover loosely with the narrow side downwards smoothly into the profile
- 7 Press at one side on the cover with uniform regular vertical movements part by part
- 8 The cover must be flush with the profile start and end.
- 9 Conduct the connection cable by the end cap [a bore is made manually in the end cap]
- 10 For the sealing of the profile at the front sides, apply sealant around the end cap into the cable duct
- 11 Slide the end cap smoothly onto the profile
- 12 Remove all residual material/sealant and clean the surface
- 13 Repeat this procedure for the second end cap [Sealant can be applied on the end cap or on the profile with cover]
- 14 Slide the end cap on until it is completely inserted
- 15 Remove all residual material/sealant and clean the surface
- 16 After a correct and careful machining, always perform a function test before remounting to check whether the protection class up to IP65 was reached

The Complete Set-series Sagittae in warm-white, RGB + warm white is a ready-made LED profile for a simple mounting (rails must not be sealed at the own worksite).

## INFORMATIONS | ADVANTAGES

- Set consists of: Aluminum profile, built-in LED Stripe, cover, end caps and connection cable (ca. 1 m) incl. WEIPU plug
- Cast profile according to protection class IP67
- Switching power supply and Controller are required separately
- fit for wall and floor mounting (fit for traffic), up to max. 1 ton (for a greater load we recommend our customised foam base as a damping means - article 990095)
- for the lighting of indoor and outdoor areas

## SAMPLE APPLICATIONS

- Mounting in cobble stone paths [entries, parkings, etc]
- Light line marking,
- civil engineering
- accent lighting
- decorative lighting

## FIXATION [NOT IN ASSORTMENT]

- Grout
- ceramic adhesive (elastic, frost-resistant)

## SAGITAE LED PROFILE COMPLETE SET IP67

- Material: Aluminum
- Connection Stripe: 2 cable [V-, V+]
- Incl. 1m connection cable with Weipu plug
- dimmable via optional controllers

Case contains:  
45 profiles  
19 covers  
4 colour samples  
2 LED support profiles  
1 Mounting profile

**148,95 €**

## STRIPES & CO.

Für die indirekte und effektvolle Beleuchtung eignen sich LED Stripes und Modulare Systeme sowie LED-Komplettsets hervorragend. Ein- oder mehrfarbige Lichtakzente lassen sich statisch festlegen. Sich verändernde Lichtstimmungen sind fest programmierbar oder auch über eine Fernbedienung sowie mobile Endgeräte zu steuern.

### LED MIXIT SET RF SINGLE WW

- dimmbar
- 4 Effektprogramme
- einstellbare Geschwindigkeit
- Reichweite ca. 20 m
- mehrere Controller können durch eine Touch-Fernbedienung gesteuert werden [durch Adressierung]
- Memory-Effekt, behält die letzte Einstellung nach einem Spannungsausfall
- Set inklusive:
  - Wandhalterung
  - Touch-Fernbedienung
  - Controller
  - Netzteil

### LED MIXIT SET RF SINGLE WW 2,5 M

- Maße L x B x H: 2500 x 8 x 3 mm
- LED Reihen: 1
- Betriebsspannung: 230V Steckernetzteil
- Material: silikoniert | flexibel
- Gehäusefarbe: schwarz
- Befestigung: Klebeband Rückseite
- Verbindung Stripe: komplett anschlussfertig
- Schnittmöglichkeit: nach 25 mm | 3 LED

**846008**  2700 K 300 LEDs 24 W 1360 lm / Set 544 lm / Meter EEL: A **89,95 €**

### LED MIXIT SET RF SINGLE WW 4 M

- Maße L x B x H: 4000 x 8 x 3 mm
- LED Reihen: 1
- Betriebsspannung: 230V Steckernetzteil
- Material: silikoniert | flexibel
- Gehäusefarbe: schwarz
- Befestigung: Klebeband Rückseite
- Verbindung Stripe: komplett anschlussfertig
- Schnittmöglichkeit: nach 25 mm | 3 LED

## RF CONTROLLER

The respective receiving systems are controlled within a range of 20 m through remote control. The system can be expanded in a simple manner by connecting one single remote control to several controller boxes. Note: A 100% synchronous controlling [program sequence, color change] of several control boxes with one single remote control can be implemented only with an available network cable connection [Master-Slave function] . The memory effect saves the most recent setting after a power failure. In connection with the KAPEGO WiFi-box, further control possibilities are provided via App for Smartphones and tablets. In this manner, RF controllers are controlled via remote control and simultaneously via smartphones or tablets.

### KAPEGO RF CONTROLLER SET SINGLE

- for controlling 1-channel end devices
- set consists of:
  - controller box, remote control und wall bracket
- dimmable
- 4 effect programs
- speed setting
- connection control: 2x V+, 2x V-
- dimensions L x W x H: 110 x 52 x 20 mm
- power: 180W at 12V DC | 360W at 24V DC

**843022**

**89,95 €**

#### accessories for 843022

## RF-TOUCH PANEL WITH 4-ZONE-FUNCTION | 4 AREAS SEPARATELY CONTROLLED

The respective receiving systems are controlled within a range of 20 m through the touch panel. The system can be expanded in a simple manner by connecting one single touch panel to several controller boxes. Note: A 100% synchronous controlling [program sequence, color change] of several control boxes with one single remote control per zone can be implemented only with an available network

cable connection [Master-Slave function]. The memory effect saves the most recent setting after a power failure. In connection with the KAPEGO WiFi-box, further control possibilities are provided via App for Smartphones and tablets. In this manner, the RF controller can be controlled via remote control, touch panel and apps. A mounting box is provided.

### KAPEGO TOUCHPANEL RF SINGLE

## KAPEGO CONTROLLER TC-2

The TC-2 controller is a touch panel, allowing the storage and retrieval of up to 4 storage locations. Scenes and atmospheres are created quickly in a user-friendly manner with the aid of the intuitive controller. It suits both hotels and auditoriums, as well as the home and living space.

- touch interface
- optional DMX512 or analogous 0-10V
- fade time setting from 0.01 to 10s
- dimming steps 0-100%
- LED display
- 4 storage locations
- EEPROM memory
- DMX out: 3 pin green terminal
- DC in: 2 pin green terminal
- 0 - 10V out: 2 pin green terminal
- dimensions L x W x H: 86 x 86 x 15,3 mm

**843005** ■ black **184,95 €**

### accessories

**872627** power supply 24V/8W **19,95 €**

## KAPEGO TOUCH 16CH PRO

The Touch 16CH Pro controller is a touch panel, allowing the storage and retrieval of up to 4 zones with 4 channels each. Scenes and atmospheres are created quickly in a user-friendly manner with the aid of the intuitive controller. It suits both hotels and auditoriums, as well as the home and living space. As a design element, the Touch 16Ch Pro is ideally implemented in the living space.

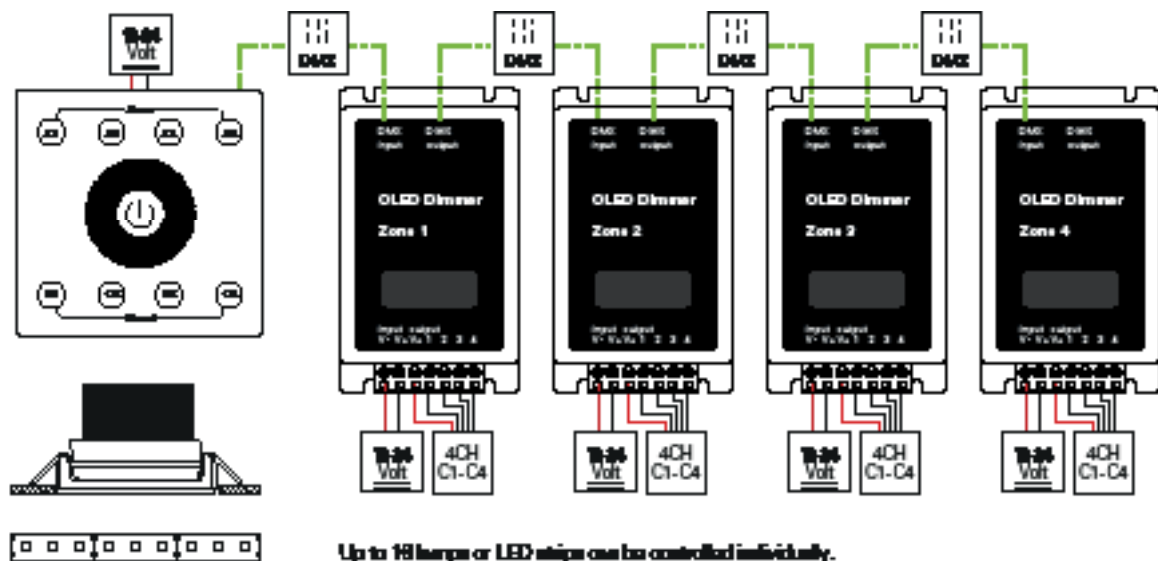

- 4 zones with 4 channels each
- colour mode for the color setting in each single zone
- program mode for the color change and fader setting for each zone
- time mode for setting the start and end time of the programs
- 14 pre-installed or 8 auto-created programs can be assigned to one scene
- internal clock to switch the zones time-dependently with the saved programs
- DMX out: 3 pin green terminal
- DC in: 2 pin green terminal
- dimensions L x W x H: 86 x 86 x 15,3 mm

**843004** ■ black **299,95 €**

### accessories

**872627** power supply 24V/8W **19,95 €**

## KAPEGO LED DMX TOUCH 16C

The LED DMX TOUCH 16C is provided with 4 zones with 4 channels each. In total, 16 single channels are available. At the selection of one of the zones (Z1-Z4), the touchwheel controls all 4 channels of this zone. At the selection of one channel (C1-C4) in one zone, the touchwheel controls this selected channel. If neither a zone nor a channel is selected, the touchwheel controls all zones, including their channels. Please note that the controller was specifically designed for warm and/or cold white end devices. By its functions, it is only conditionally implemented for RGB or RGBW end devices.

- DMX out: CAT5 [RJ 45] opt. terminals
- background illumination and touch signal tone optionally connectable
- memory function: the Kapego DMX Touch 16C memorizes the most recent brightness setting of all zones and channels
- DMX out: CAT5 [RJ45]
- DC in / PWM out: 2 pin green terminal
- power in: optional via Mini-USB 5V DC
- dimensions L x W x H: 86 x 86 x 17,4 mm

**843001** ■ black **128,95 €**

## KAPEGO ART 4 | RGBW

The ART 4 controller is a touch panel for playing and editing color programs, specifically for RGBW end devices. Up to 4 atmospheres and up to 4 scenes can be saved and retrieved. The ART-4 contains 4 function menus: Selection of integrated programs, color, brightness, speed setting. Scenes and atmospheres are created in a quick and user-friendly manner. As a design element, the ART 4 controller is ideally suited in the environment and is an appropriate choice both for hotels and auditoriums and the home and living space.

- PWM out for the direct control of LED devices
- output of DMX 512 for controlling further dimmers
- control element and controller via touchwheel
- fade times of 0-4 seconds possible
- DMX out: 4 pin green terminal
- DC in / PWM out: 7 pin green terminal
- power out: 4 channels each 2A
- dimensions L x W x H: 86 x 86 x 15,3 mm
- integrated PWM-dimmer 12/24V, 4 x 2A

**843000** ■ black **184,95 €**

### accessories

**872627** power supply 24V/8W **19,95 €**

## KAPEGO ART 9 | RGBW

The ART 9 controller is a touch panel for playing and editing color programs, specifically for RGBW end devices. Up to 9 atmospheres and up to 9 scenes can be saved and retrieved. The ART-9 contains 4 function menus: Selection of integrated programs, color, brightness, speed setting. Scenes and atmospheres are created in a quick and user-friendly manner. As a design element, the ART 9 controller is ideally suited in the environment and is an appropriate choice both for hotels and auditoriums and the home and living space.

- control element and controller via touchwheel
- fade time setting for switch on/off and color change
- function memory and power failure protection
- DMX out: 4 pin green terminal
- link in: 4 pin green terminal
- link out: 4 pin green terminal
- DC in / PWM out: 7 pin green terminal
- 4 channels each 2A, max. 8A in total
- dimensions L x W x H: 172 x 86 x 15,3 mm

**843003** ■ black **199,95 €**

### accessories

**872627** power supply 24V/8W **19,95 €**

## KAPEGO X-FADE-6 I CONTROLLER

The X-Fade 6 is a modern wall controller on the DMX basis for LED dimmers. Up to 6 faders can be directly controlled and connected to RGB dimmers. For example, 2 RGB stripes are addressed and also 6 single one-color stripes can be controlled in 6 different zones. The X-Fade 6 is further used as a standard 6 channel DMX Controller, which enables the control of DMX dimmers or devices with up to 6 channels. Additionally, up to 6 different programs can be retrieved. Each program can contain up to 100 steps. Programs can also be controlled automatically. [A mounting box is required for the assembly of the controller.]

- incl. IR-remote control
- 6 programmable scenes
- fade time setting
- operating voltage: 12V DC ~ 24V DC
- DMX in 3 pin green terminal
- DMX out 3 pin green terminal
- DC in 4 pin green terminal
- dimensions L x W x H: 86 x 86 x 16,3 mm

**861203** ■ black

### accessories

**872627** power supply 24V/8W **19,95 €**

## KAPEGO LED DIMMER 2

- simple and powerful 1-2 channel dimmer
- to be used as a single device or in connection with a control panel in an assembly
- flicker-free
- connection 4 terminals [2xV+, 2xV-]
- controller DMX, 0-10V, manuell, automatic
- dimensions L x W x H: 115 x 57 x 25 mm
- power 2x 72W at 12V, 2x 144W at 24V

**843336** ■ black **67,95 €**

## KAPEGO LED DIMMER 3

- simple and powerful 3 channel dimmer
- to be used as a single device or in connection with a control panel in an assembly
- flicker-free
- connection 6 terminals [3xV+, 3xV-]
- controller DMX, manuell, automatic
- dimensions L x W x H: 115 x 57 x 25 mm
- power 144W at 12V, 288W at 24V

**843335** ■ black **72,95 €**

## KAPEGO LED DIMMER 4

- simple and powerful 4 channel dimmer
- to be used as a single device or in connection with a
- 4 channel wall controller
- flicker-free
- connection 6 terminals [2xV+, R, G, B, W]
- controller DMX, manuell, automatic
- dimensions L x W x H: 115 x 57 x 25 mm
- power 144W at 12V, 288W at 24V

**843337** ■ black

**76,95 €**

## KAPEGO LED DIMMER 350CC

- the LED Dimmer 350CC controls LED devices with a 350 mA constant current via the DMX or optional 0-10 V input.
- flicker-free
- connection 4 terminals [4xV+, 4xV-]
- controller DMX, manuell, automatic
- dimensions L x W x H: 115 x 57 x 25 mm
- power max. 50W

**843339** ■ black

**79,95 €**

## KAPEGO OLED DIMMER 3

- to be used as a 1 or 3 channel dimmer [control via a DMX address]
- a manual mode allows the single dimming of the 3 channels on the device [colour setting]
- incl. 27 colour change programs and Master/Slave function
- all settings are retrieved via a simple menu on a LCD display
- incl. 2m CAT5 cable [RJ45]
- connection 4 terminals [R, G, B, V+]
- controller DMX, manuall, automatic
- dimensions L x W x H: 116 x 57 x 23,8 mm
- power 240W at 12V, 480W at 24V

**843268** ■ black **76,95 €**

12-24 Volt	CV	1/3 CH	DMX	CAT 5
---------------	----	-----------	-----	----------

## KAPEGO OLED DIMMER 4

- to be used as a 1, 2 or 4 channel dimmer
- a manual mode allows the single dimming of the 4 channels on the device [colour setting]
- incl. Master/Slave function, master dimmer and 13 color change programs with variable speed
- all settings are retrieved via a simple menu on a OLED display
- incl. 2m CAT5 cable [RJ45]
- connection 5 terminals [V+, R, G, B, W]
- controller DMX, manuall, automatic
- dimensions L x W x H: 116 x 57 x 23,8 mm
- power 240W at 12V, 480W at 24V

**843269** ■ black **87,95 €**

12-24 Volt	CV	1/2/4 CH	DMX	CAT 5
---------------	----	-------------	-----	----------

## KAPEGO R-DMX 3+1

RDM means »Remote Device Management«. This remote device management enables the control of the RDMX 3+1 from the control panel. This provides a great advantage, specifically for inaccessible installations or sites that are difficult to reach. After installing the components, the RDMX 3+1 and its connected LED end devices logs on automatically in the control panel. Now, the required DMX channels can be assigned or changed via the control panel, without any further settings being required for the remote RDMX 3+1. If RDM is not available, the DMX address assignment can also be set manually via the DIP switch. For this purpose, the entire system must be RDM compatible.

- complies with the DMX 512/1990, RDM protocol/2009
- supports automatic DMX addressing
- incl. top-hat rail adapter
- incl. 2m CAT5 cable [RJ45]
- connection 1, 2, 3, 4, V+
- dimensions L x W x H: 120 x 43 x 23 mm
- power 192W at 12V, 384W at 24V

**843273** ■ black **71,95 €**

## KAPEGO HV DMX 135W

- compact DMX combi device for simple and quick installation
- one housing combines a powerful 3 channel dimmer as well as a 135 watt power supply
- controlled with all 3 channel control panels
- supports DMX512
- dimmable from 0 - 100%
- soft dimming without flickering
- dimensions L x W x H: 196 x 75 x 40 mm
- total power 135W

<b>843274</b>	■	black	12V	3 x 45W	<b>129,95 €</b>

## EUROLITE DMX-CONTROLLER LED EASY DELUXE

The LED EASY DELUXE is a very simple and intuitive DMX controller that can be used for a wide range of applications. No matter if commercial or private, wherever LED strips, lights, spotlights with 1-6 colours [WWW, CW, WW-CW, RGB, RGBW, RGBW-A-UV] and DMX are controlled via corresponding controller/dimmer, this new DXM controller finds its application. It is very easy to directly select 12 different stored light moods/scenes using a rotary control.

- easy control of LED strips, lamps, spotlights etc. with 1-6 colours
- for up to 4 different device groups/zones
- quick and easy commissioning thanks to pre-installed programs
- single DMX channels for red, green, blue, white, amber and UV
- 12 memory slots for permanently stored lighting moods
- 4 colour controls with 12 colors each
- 4 brightness controls
- function buttons for blackout, auto, music control and strobe effect

RGBW, RGBW-A-UV] and DMX are controlled via corresponding controller/dimmer, this new DXM controller finds its application. It is very easy to directly select 12 different stored light moods/scenes using a rotary control.

- fader for overall brightness, sequence and fade time
- 3-pin XLR connector
- operation as a tabletop device or built-in device
- control: DMX / max. 24 channels
- power supply: power cable with power adapter [included]
- weight: 1.2 kg
- protection class: IP20
- connection power: 10W
- dimensions L x W x H: 260 x 140 x 65 mm

**843046** ■ black

**149,95 €**

## EUROLITE DMX-CONTROLLER LED COLOR CHIEF

The COLOR CHIEF is an innovative and easy to use DMX controller, which is optimally tailored to the needs and requirements of gastronomy, bars, event locations, event rooms, etc. . It is suitable for controlling e. g. LED strips, lights, spotlights, light effects and all other components with 1-6 colours [WW, CW, WW-CW, RGB, RGBW, RGBW-A-UV]

- easy control of LED stripes, lights, headlights or similar with 1-6 colors or simple lighting effects with up to 30 channels
- fast and easy programming
- extensive, already pre-installed device library with many common applications
- additional devices can be easily added manually
- 8 color effects directly selectable
- three additional channels are freely assignable per device [e.g. for special functions, movements, etc.]
- colour wheel selection
- 24 memory slots for permanently stored lighting moods
- USB port for data storage / restoration of programming
- clock control with programmed chases via music signal
- total dimming, fade time between individual scenes comfortably adjustable
- 3-pin XLR connector
- firmware-Update via USB
- operation as rack installation [19 "/ 3 height units] or desktop unit
- control: DMX / max. 240 channels
- power supply: power cable with power adapter [included]
- weight: 2.2 kg
- protection class: IP20
- connection power: 10W

**843047** ■ black

**299,95 €**

## DALI PWM LED DIMMER 4 CHANNEL

- plastic
- for controlling 1-4 channel devices  
[single, WW / CW, RGB, RGBW components]
- dimmable via DALI BUS [Protokoll IEC62386]
- overload / short circuit indication / shutdown
- dimensions L x W x H: 167 x 51 x 23 mm
- power 4x 60W at 12V, 4x 120W at 24V

843010 ☐ white 99,95 €

## CASAMBI BLUETOOTH CONTROLLER

Smart Home can be so simple. Install the Casambi module in the distribution box, suspended ceiling or similar – install the app from the Playstore/iTunes, connect the module to your mobile phone and the app, set it up and off you go!

### CASAMBI BLUETOOTH CONTROLLER CBU-TED | 230V SCHALTEN/DIMMEN

With this module 230V components can be directly dimmed or switched [configuration via Handyapp].

- suitable for R-loads [light source, high-voltage halogen]
- suitable for C loads [dimnable high-voltage LED, electrical power supplies]
- power in switching operation: light bulb, high-voltage halogen, high-voltage LED, electrical ballasts: max. 150W
- power in dimming mode: dimmable high-voltage LED, electrical ballasts: max. 50W / max. 2 components
- dimensions L x W x H: 40,4 x 36,3 x 14 mm

**843008** ☐ white **131,95 €**

### CASAMBI BLUETOOTH CONTROLLER CBU-ASD | DALI/0-10V | 1-10V

The module generates either a DALI, 0-10V or 1-10V control signal with which 1 ballast/power supply or similar can be operated [configuration via Handyapp].

- dimensions L x W x H: 56,5 x 35,8 x 22,3 mm

**843011** ☐ white **123,95 €**

### CASAMBI BLUETOOTH CONTROLLER CBU-PWM4| LED 1-4 CHANNEL DIMMER

With this module you can control 12V/24V LED strips, lamps etc. with 1-4 channels [WWW, CW, WW-CW, RGB, RGBW], which can be controlled by PWM [configuration via mobile app].

- dimensions L x W x H: 72,6 x 30 x 18 mm
- power 144W at 24V, 72W at 12V

**843037** ☐ white **138,95 €**

## OSRAM HALOTRONIC MOUSE TRANSFORMATOR

The Osram Halotronic Mouse Transformer is ideal for confined spaces. The Halotronic Mouse series is dimmable via leading or trailing edge dimmers. With the 150VA version, you have the option of primarily looping on using two pairs of terminals.

- short-circuit protection
- overload protection
- abnormal temperature protection
- fitted with noise suppression

## SAFETY ISOLATING TRANSFORMER ACCORDING TO DIN EN 61558-1

2006-7/DIN EN 61558-2-6: 2010-04 with direct current [DC]

A safety transformer requires stronger or double insulation and stricter checks apply. It is therefore suitable for applications according to DIN EN 61558 in the area of increased personal protection, e. g. for the operation of luminaires which are installed in swimming pools, fountains, wet cells or similar.

## LED SAFETY ISOLATING TRANSFORMER

- dimmable via leading edge
- maximum load: 80% continuous operation

<b>872045</b>	■ black	24V 60W	150 x 90 x 70 mm	<b>299,95 €</b>
<b>872046</b>	■ black	24V 150W	176 x 116 x 110 mm	<b>399,95 €</b>

BASIC INFORMATION ON THE USE OF DALI BALLASTS

DALI SINGLE DIMMER

DALI single dimmers cannot be integrated into existing DALI networks. The control takes place via so-called single dimmers, which generate their own control signal.

DALI BUS READY

These components can be integrated and controlled in existing DALI BUS systems that comply with the IEC 62386 protocol.

KAPEGO POWER SUPPLY DALI DCV

- DALI BUS ready according to protocol IEC 62386
- supports touch dimmer function [Push]
- soft dimming without flicker

BASIC INFORMATION ON THE USE OF DALI BALLASTS

DALI SINGLE DIMMER

DALI single dimmers cannot be integrated into existing DALI networks. The control takes place via so-called single dimmers, which generate their own control signal.

DALI BUS READY

These components can be integrated and controlled in existing DALI BUS systems that comply with the IEC 62386 protocol.

KAPEGO POWER SUPPLY | BAUFORM BASIC DALI CC DRIVER

• dimmable via DALI-single dimmer

**738 POWER SUPPLY** | DC | indoor | constant power | dimmable via DALI or PUSH

## KAPEGO POWER SUPPLY HV DMX 135W

Easy to install and compact DMX unit. A powerful 3 channel dimmer and a 135 Watt power supply are combined in one housing. This makes installation quick and easy. Controllable with all 3 channel control panels and DMX Controllers.

- supported DMX 512
- dimmable von 0 - 100%
- soft dimming without flicker
- with integrated 3-channel DMX-dimmer

## ACCESSORIES

Accessories are part of each lighting concept. Distribution, extension, connection - the correct accessories allow the enhancement of installation options.

## DIMMER | LEADING EDGE

suitable for dimming of:

- R loads [light sources] 20 - 500 W
- L loads [conventional twistes transformers] 20 - 500 W
- max. 5 electronical ballast
- suitable for 68 mm floating boxes

**100484** ☐ white

**62,95 €**

## DIMMER | TRAILING EDGE

suitable for dimming of:

- R loads [light sources] 10 - 350 W
- C loads [electronical ballast] 10 - 350 W
- max. 5 electronical ballast
- adjustable minimum load / brightness
- perfectly matched to Kapego power supply
- suitable for 68 mm floating boxes

**930060** ☐ white

**53,95 €**

## DIMMING WITH LEADING/TRAILING EDGE

Please attention that the dimmer is suitable for new installations.

difference about electrical loads:

- [R] = resistive load = light sources,  
high voltage halogen, etc.
- [L] = inductive load\* = twisted transformer
- [C] = capacitive load\* = high voltage-LED,  
all electr. transformers

\*max. 5 [C load] or 2 [L-load] electronical ballast / lamp per dimmer operate

You would like to dimming and switching 230V components from several locations, but do not have the required number of cores in the existing installation? Then the following

universal dimmer switches are ideal for easy and problem-free integration of both existing and new installations.

## ELTAKO DIMMER UNIVERSAL 400W EUD12NPN-UC

- control via standard pushbutton  
[control voltage 10V-230V AC + DC]
- short keys [on / off], long keys [dimming 0-100-0%]
- suitable for R-L-C loads up to 400W, high voltage LEDs up to 100W, automatic load detection, memory-function, adjustable minimum load and dimming speed
- dimensions L x W x H: 20 x 90 x 70 mm

**843042**  blue

**94,95 €**

## ELTAKO DIMMER UNIVERSAL 400W EUD61NPN-UC

- control via standard pushbutton  
[control voltage 10V-230V AC + DC]
- short keys [on / off], long keys [dimming 0-100-0%]
- suitable for R-L-C loads up to 400W, high voltage LEDs up to 100W, automatic load detection, memory-function, adjustable minimum load and dimming speed
- installation in junction box possible
- dimensions L x W x H: 45 x 45 x 18 mm

**843043**  blue

**94,95 €**

## ELTAKO SCHALTAKTOR-SET WITH FUNKTASTER

- control via standard pushbutton  
[control voltage 10V-230V AC + DC]  
or freely positionable wireless pushbutton
- short keys [on / off], long keys [dimming 0-100-0%]
- suitable for R-L-C loads up to 300W, high voltage LEDs up to 100W, automatic load detection, memory-function, adjustable minimum load and dimming speed
- dimensions dimmer L x W x H: 45 x 45 x 18 mm

**843032**   blue / white

**269,95 €**

## ELTAKO LED DIMMER SWITCH ELD61/12-36V

- control via standard pushbutton  
[control voltage 10V-230V AC + DC]
- short keys [on / off], long keys [dimming 0-100-0%]
- suitable for 12V/24V/36V LED-stripes  
and dimmable LED-lamps
- power 48W at 12V, 96W at 24V
- soft-off for lamp protection
- memory-function, adjustable minimum brightness /  
dimming speed
- dimensions L x W x H: 45 x 45 x 18 mm

**843033**  blue

**89,95 €**

## ELTAKO DIMMER CONTROL SDS61/1-10V

- control via standard pushbutton [control voltage 230V],  
that generates a 1-10V control signal [max. 40 mA]  
at the output
- short keys [on / off], long keys [dimming 0-100-0%]
- suitable for dimmable power supply with 1-10V control input
- switching output [ECG on / off] memory-function  
and adjustable dimming speed
- dimensions L x W x H: 45 x 45 x 33 mm

**843044**  blue

**89,95 €**

## HIGH FREQUENCY MOTION SENSOR | MD1200

- angle of coverage 360°
- detection range 1 - 10 m
- switching time 5 sec - 30 min
- daylight threshold 5 - 2000 Lux
- suitable for switching all common illuminants /  
electronical ballast [R- / L- / C-loads]
- max. 5 electronical ballast
- dimensions L x W x H: 75 x 42 x 28 mm

**930036**  white

**24,95 €**

## MAGIC SWITCH

The MAGIC SWITCH is the invisible switch for a variety of applications. Mounted on a plate back or incorporated into a blind hole, it detects the movement taking place on the front of the plate and switches. The MAGIC SWITCH works only in connection with non-metallic surfaces and materials such as wood, glass, ceramics up to a material thickness of 19 mm.

**920132** ■ black

**59,95 €**

## ELTAKO RC RC ELEMENT THREE-WAY RC12-230V

By inductive interference voltages on control and power lines, there is an increasing number of undesirable effects that linear LED lights, which have a very low power consumption, permanently glow or flash due to the design. By installing the RC extinguishing element in the electrical distributor [connection N, L1, L2, L3] inductive interference voltages are compensated / suppressed.

• dimensions L x W x H: 20 x 90 x 70 mm

DEFINITION OF LIGHT

For a better understanding, light can be defined as an electromagnetic wave. The human eye can only observe the electromagnetic waves that lie in the so-called viewable area. There are also further waves with other frequencies that are not visible as a colour to our eye. The intended use of these waves is explained by the assignment of names. The whole electromagnetic spectrum ranges from radio waves belonging to the lowest energy long waves, to X-rays

and gamma rays of atomic nuclei, belonging to the most energy-rich waves. On the contrary, the viewable area is only a small part of this spectrum. It varies between 380nm [purple] and 780nm [red].

LIGHT COLOUR | TEMPERATURE

The colour temperature indicates how hot or cold the effect of a white lamp is. This is measured in Kelvin [K] units. The smaller the Kelvin value, the hotter the light. The light of a customary light bulb corresponds to approx. 2700 K. The higher the Kelvin value, the colder and bluer the light. In comparison, daylight is estimated at approx. 7000K. Kelvin defines fundamentally a temperature. This means the temperature that an object must have [e.g. glowing coal], so that the light of it provides the same colour impression as the light source.

0°C = -273K

LIGHT SOURCE	TEMPERATURE
spark plug	1500 K
filament lamp 40W	2680 K
filament lamp 100W	2800 K
halogen lamp	3000 K
fluorescent lamp WW	3000 K
fluorescent lamp CW	4000 K
xenon lamp   arc	4500 - 5000 K
midday sun	5500 - 5800 K
fluorescent lamp [daylight]	5600 - 7000 K
clouded sky	6500 - 7500 K
blue sky	8000 - 12000 K

## BINNINGS

Production tolerances are inevitable for the manufacturing of LEDs. They are due to very small parameter deviations. Based on these tolerances, the LEDs are sorted according to their deviation and stored in different bins. The quality of a lighting device with several LEDs increases according to the narrowness of tolerances that are set for the bins.

### NORM TABLE

### BINNINGS

### WHITE LEDs

## LED: LIGHT-EMITTING-DIODE

LEDs are the ideal basis for creative ideas in light implementations. Light diodes are modern semi-conductor components which are also called »Light-emitting diodes«. They consist of mixed crystal semi-conductors, such as gallium arsenide [GaAs], gallium arsenide phosphide [GaAsP], gallium phosphide [GaP]. Power is supplied to the LED [module] via appropriate LED power supply units with safety extra-low voltage [SELV]. Light diodes convert this electrical energy into light energy. RGB stands for the colours red - green - blue [wave length 430-655 nm]. These 3 base colours form the basis for almost all colours. If red, blue and green have a 100% luminosity setting, you obtain white. Modern RGB light diodes unite the three red, green and blue colours in a chip housing, the so-called 3 in 1 LED RGB.

## ADVANTAGES OF LED TECHNOLOGY

- high service life and low maintenance costs
- low energy costs
- vibration and impact-free
- small design
- IR/UV-free light, thus no heat radiation
- environment-friendly

## MULTIPLE APPLICATION OPTIONS

- direct & indirect illumination for room design
- back-lighting of promotional literature, showcases, etc.
- architectural lighting/object illumination
- implementations in indoor and outdoor area

## RA 70-80

medium colour display

## RA 80-90

good colour display

## RA 90-100

very good colour display

## COLOUR DISPLAY INDEX RA

The colour display index means the extent to which the viewed body colour matches its appearance under the respective reference light source. The lower the deviation, the better the colour display feature. A light source with  $R_a = 100$  displays all colours very precisely. The lower the  $R_a$  value, the lesser the display correctness of the colours. The  $R_a$  value is measured by the first 8 test colours.

## PARALLEL SWITCHING

If several voltage constant [CV] luminaires / illuminants are to be operated on a power supply unit, this must be done by a parallel connection. Each luminaire receives the same voltage and the total current is added to the individual partial currents of each luminaire.

It is also possible to connect luminaires with different power but the same voltage.

If a lamp fails due to a defect, usually all others continue to shine.

application areas:

classic halogen lighting and all bulbs / lamps with a constant input voltage [CV]: mostly 12V or 24V

## SERIES CONNECTION

If several current-constant [CC] luminaires / illuminants are to be operated on a power supply unit, this must be done in a series connection. Each luminaire receives the same current and the applied voltage is divided by the number of luminaires.

In addition to the required power, the required total voltage of the driver must be taken into account when calculating the power supply.

We always recommend one power supply per light. However, there should never be more than three lamps connected in series to a compatible AC adapter.

It is not possible to connect luminaires with different power. If a lamp fails due to defect most of the luminaires in the series connection fail [Christmas tree fairy lights effect].

Application areas:

all current-stable [CC] lamps / lamps, for example: 350 mA, 500 mA

## LIGHT CURRENT

- letter symbol:  $\Phi$
- measuring unit: lm - LUMEN

The luminous flux describes the light quantity that is shed from a light source in all directions. The luminous flux is not measured, but it is calculated on the basis of the measurement values of the light intensity and the information on the spreading geometry.

## ILLUMINANCE

- letter symbol:  $E$
- measuring unit: lx - Lux

This is a measurement of a light shed on a surface. It is measured in Lux [lat. brightness]. It reduces at a greater distance from the light source. Instructions on the required illuminance are found in the norms [e.g. EN 12464 »Illumination of worksites«].

## LIGHT INTENSITY

- letter symbol:  $I$
- measuring unit: cd - Candela

A light source irradiates with different intensities in the single directions. The light flow that irradiates in a specific direction is called light intensity and is expressed in Candela units.

## LIGHT DENSITY

- measuring unit: cd /m<sup>2</sup>

This is a measurement for the brightness of an illuminated surface that is caught by the eye, according to the reflection degree.

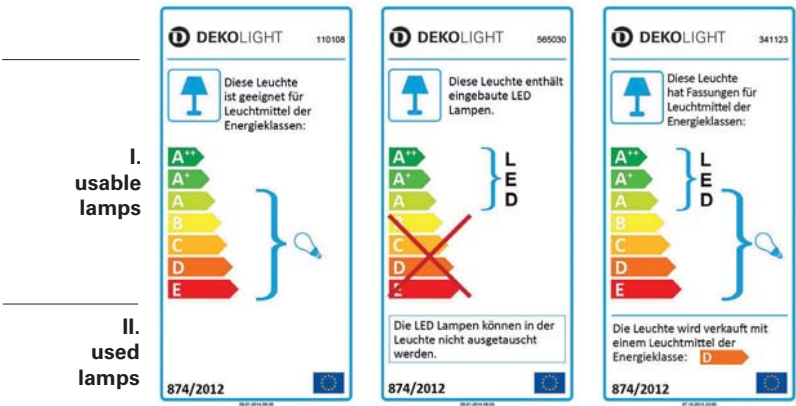

**IDENTIFICATION OBLIGATION  
FOR ELECTRIC LAMPS AND LIGHTS**

Decree [EU] no. 874 2012 establishes specific requirements for the identification of electric lamps and lights. This identification obligation refers to the labeling of electric lamps and lights with specific information for the end user. The information on these labels are stated in the catalogue as follows:

example of label for electric lights

## IP PROTECTION AREAS

### ■ ZONE 0

Low voltage [max. 12 V] is mandatory in bath and shower tubs. Minimum IP protection is IP X7 [secured against incoming water].

### ■ ZONE 1

IP X5 [max. 50 V] is prescribed in the wall area of showers and in the tile area subject to spray water.

### ■ ZONE 2

IP X4 is prescribed for areas that are at a distance of 60 cm from zone 1.

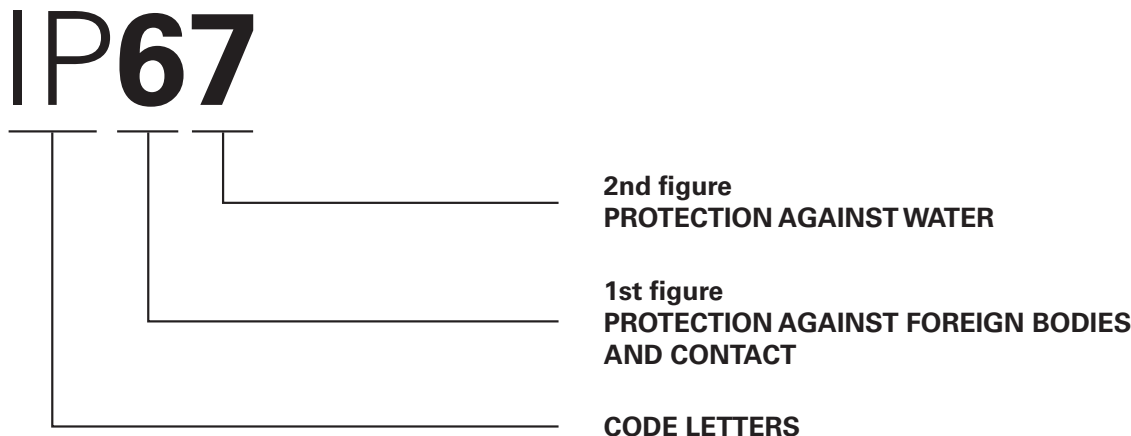

### ■ ZONE 3

Outside zones 0 to 2, no specific IP protection is required, provided no direct water jet is used for cleaning.

# PROTECTION CLASSES & ISOLATION CLASSES

Lights and other electric devices have a housing that protects live parts against contact, humidity or other environmental influences. This protection depends on the respective implementation area. For an overview of the appropriate intended use, all devices are assigned a protection class according to a VDE classification and an isolation class.

## IP PROTECTION AGAINST FOREIGN BODIES AND CONTACT

### 1st figure PROTECTION AGAINST CONTACT

- 0 no protection
- 1 large foreign bodies [Ø > 50 mm]
- 2 medium foreign bodies [Ø > 12 mm]
- 3 small foreign bodies [Ø > 2,5 mm]
- 4 grain-form foreign bodies [Ø > 1 mm]
- 5 dust deposit
- 6 dust penetration

### 1st figure PROTECTION AGAINST FOREIGN BODIES

- 0 no protection
- 1 large body parts [e.g. back of the hand]
- 2 finger
- 3 tools and wires [Ø > 2,5 mm]
- 4 tools and wires [Ø > 1 mm]
- 5 full contact protection
- 6 full contact protection

## IP PROTECTION WATER

### 2nd figure PROTECTION AGAINST WATER

- 0 no protection
- 1 protection against vertical falling dripwater
- 2 protection against inclined [up to 15°] falling dripwater
- 3 protection against spraywater [up to 60°] against the vertical
- 4 protection against spraywater all around
- 5 protection against hose water
- 6 protection against strong water jet
- 7 protection against temporary immersion
- 8 protection against sustained immersion
