

Stiffel®

A close-up photograph of a hand holding a carving tool, meticulously shaping a white, textured lamp shade. The shade features a complex, multi-layered design with pointed, petal-like segments. The background is dark and out of focus, showing other parts of the workshop.

The Stiffel Difference

Many factors combine to make the Stiffel Difference: integrity of design, hand craftsmanship and use of the finest materials. Made in the USA, every Stiffel lamp is an original, created by talented designers and skilled artisans. A Stiffel lamp has a rare quality that transcends the strictly utilitarian and goes beyond the merely decorative.

The purchase of a Stiffel lamp is one of the finest investments you could make for your home. Of course, there is the obvious beauty and form of the piece, but that is just the beginning.

A Stiffel lamp is that exceptional creation born of a perfect balance between inspiration, design and integrity. A Stiffel lamp is a work of art.

To truly appreciate the beauty of a Stiffel lamp, one must take in each detail and consider the hours of expert craftsmanship that created it: the design, the carving, the finish. A close study reveals the distinguishing value of a Stiffel lamp. It takes dozens of precise steps to achieve this beauty that, in the end, satisfies the tastes and aesthetics of even the most discriminating.

Stiffel -Where Traditional American Manufacturing Meets Modern Design

The Stiffel Lamp Company was founded in 1932, in Chicago, Illinois by Ted Stiffel. A talented craftsman, Ted Stiffel had a background in fine arts that gave him a unique ability to design innovative and intelligently crafted lamps, which were also beautiful to behold. Stiffel's dedication to excellence established the company as the industry leader in quality.

During World War II, the company opened up a screw machine department and produced hundreds of thousands of bolts for anti-aircraft guns and other essential components for the war effort. In 1945, after V-J Day, when most government contracts were withdrawn, Stiffel went back to what it did best, making the highest quality metal lamps.

Over the years Stiffel Lamp has contributed a myriad of accomplishments to the lamp industry, including the invention of the patented Stiffel Switch, the pole lamp and unparalleled accomplishments in design. Today that tradition continues with caring and enthusiastic employees, all of whom work towards one common and rare goal – excellence. Proudly all of our products are still made in America, at our 40,000 square foot facility in Linden, NJ. If you take pride in possessing the unusual as well as the finest, then Stiffel should be your choice in lamps. Precise craftsmanship and magnificent design combine to make Stiffel Lamps the world's finest.

Diameter: 18" • Base: 13"

FINIALS

General Information

All Stiffel finials are made from high quality cast metal and finished in a durable painted, powder coated or electroplated finish. Each piece is carefully hand cast, polished and finished to create a high quality finished product. Proudly, all of our products are still Made in America, at our 40,000 square foot facility in Linden, NJ.

Custom Products Available

In addition to the standard finials displayed throughout this catalog, we manufacture custom designed products as well. If you wish to order a style shown here in a custom finish or a custom bottom thread, we can accommodate that as well. Minimum orders do apply.

Terms & Conditions

Minimum orders of 6 per style and finish are required for all catalog items, as well as a minimum order of \$200.00. Orders can be combined with Stiffel Lamps or Lite Tops Lampshades to meet the minimum \$200.00 order, but the 6 per finial style will be strictly enforced. Orders less than \$200.00 will be assessed a \$25.00 minimum service charge.

Terms are Net 30 from date of shipment. All claims for errors, shortages, or defects must be made within 14 days of receipt of shipment. No returns or allowances will be accepted without prior written factory approval.

SHADES

THE STIFFEL SHADE

The crowning glory to any lamp is its shade. Those in the know, will tell you that a Stiffel shade is truly a work of art in itself. All materials used in Stiffel shades, including frames, fabrics and trims are hand-crafted of the finest materials available. There are two basic types of shades; hard back shades and soft shades. Hard back shade linings are made of paper, foil or vinyl. Soft back shades are shades in which the lining material is soft and made of fabric.

HAND-WRAPPED FRAMES

All shades begin construction over a tempered steel frame that has been painted with enamel to prevent rust and minimize shadows. Some frames are hand-wrapped for even longer-lasting construction. Nothing can surpass the inherent skill and dedication of our seamstresses who hand pleat and hand sew some of our more exquisite shades. The fabrics and trims, many of which are imported, are applied by hand and the edges are bonded to prevent any fabric fraying. When purchasing a shade, look for the Stiffel name. It can be easily identified on the shade fitter. Because quality is of utmost importance at Stiffel, most shades are hand-wrapped with cellophane strips at the factory to protect the fabric during shipping and handling. Because Stiffel lamps are often designed with two or three shade options, each individual lamp can reflect a choice of styles and moods.

HOW TO MEASURE SHADE HEIGHTS FOR REPLACEMENT

Four dimensions are important when measuring for shade replacement; depth, top and bottom diameters and drop. The following diagrams illustrate the necessary measurements.

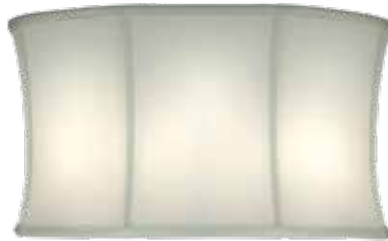

- a**-Top Diameter
- b**-Bottom Diameter
- c**-Depth (straight up and down)
- d**-Drop (fitter to top of shade)
- e**-Outside Ring Diameter
- f**-Inside Ring Diameter
- g**-Slant

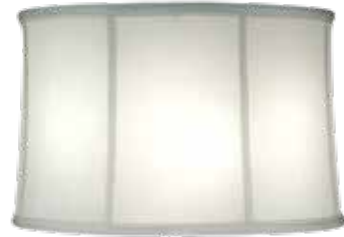

- When giving the size for any fluted or pleated shade, it is advisable to measure both the inside ring diameter (**f**), the outside ring diameter (**e**), and the length of the slant (**g**).
- When measuring a rectangular or oval shade, the top and bottom diameters are required in addition to the depth.
- When measuring a glass shade, the top diameter and height are required.

THE STIFFEL LAMP COMPANY HISTORY

The Stiffel Lamp Company was founded in 1932, in Chicago, Illinois by Ted Stiffel. A talented craftsman, Ted Stiffel had a background in fine arts that gave him a unique ability to design innovative and intelligently crafted lamps, which were also beautiful to behold.

Stiffel's dedication to excellence established the company as the industry leader in quality.

During World War II, the company opened up a screw machine department and produced hundreds of thousands of bolts for anti-aircraft guns and other essential components for the war effort. In 1945, after V-J Day, when most government contracts were withdrawn, Stiffel went back to what it did best, making the highest quality metal lamps.

Over the years Stiffel Lamp has contributed a myriad of accomplishments to the lamp industry, including the invention of the patented Stiffel Switch, the pole lamp and unparalleled accomplishments in design.

Today that tradition continues with caring and enthusiastic employees, all of whom work towards one common and rare goal – excellence.

Proudly all of our products are still made in America, at our 40,000 square foot facility in Linden, NJ.

If you take pride in possessing the unusual as well as the finest, then Stiffel should be your choice in lamps. Precise craftsmanship and magnificent design combine to make Stiffel Lamps the world's finest.
