ANTONIO ARICÒ

Antonio Aricò is an Italian artist, designer and creative director.

After earning a double degree at Milan Polytechnic he obtained his master's degree with a work based on the themes of Design & Tradition, combining the fields of art, craft and design.

These theories merged with the poetic of contemporary culture, make up Aricò's interdisciplinary practice today.

He is known as forerunner of a unique approach that parallels crafts and self-production with industrial design.

With each new project he approaches design themes, preferring to focus on the romantic, fantastic and archetypal rather than just the functional.

In this universe the coldness of industrialism is replaced by the poetry, fantasy and romance of our past, vividly brought to life in contemporary days.

MAGNA GRAECIA BLU COBALTO / TERRACOTTA COLLECTION

MARCANTONIO

He attended the Art Institute and the Academy of Fine Arts.

As soon as he graduated, he began working as a theatrical set designer and collaborating with various architects.

The connections between Man and Nature are his favorite topic, with his original interpretation of Nature's dynamics and beauties showing Man's attitude to alter the original.

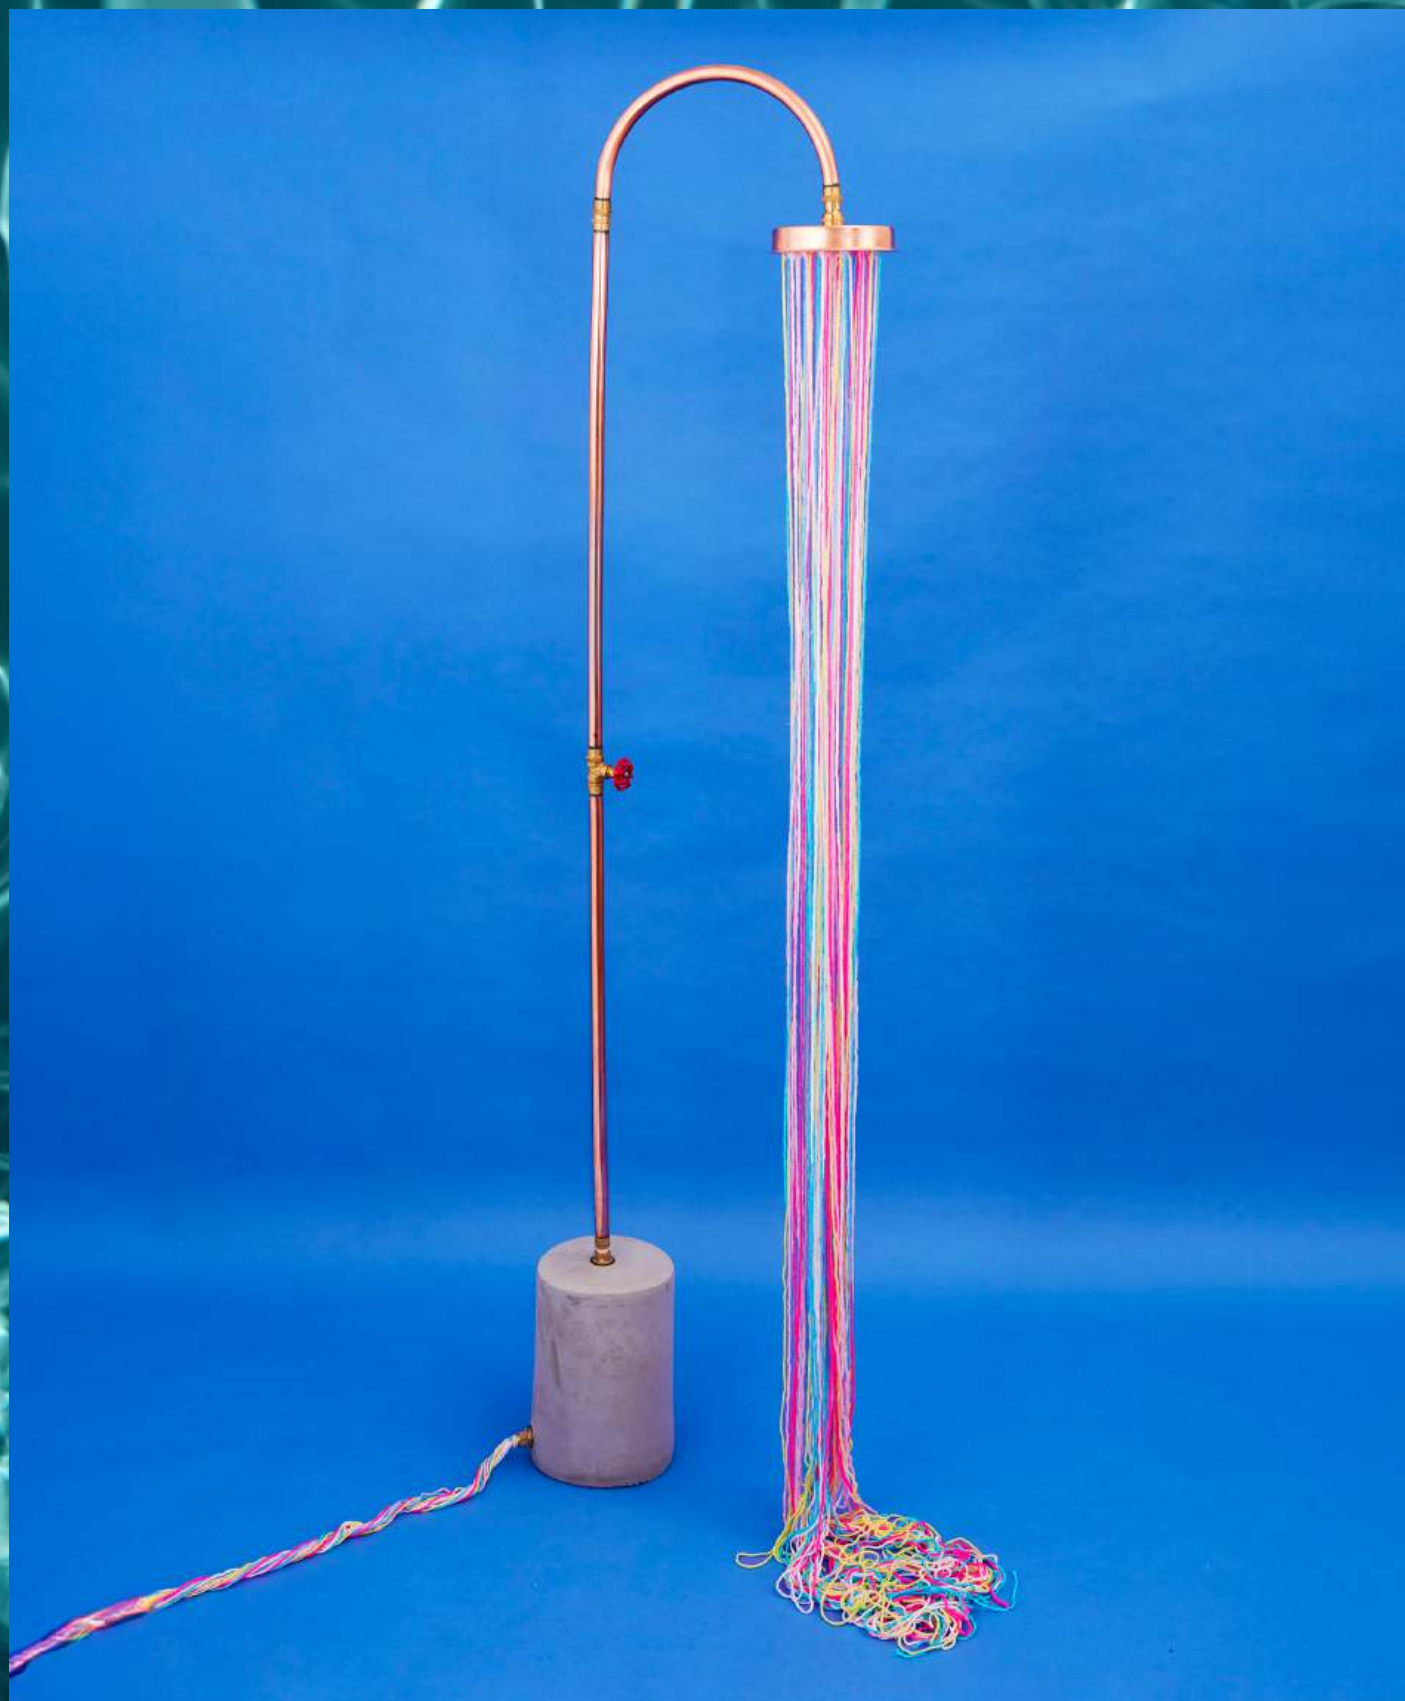

He learned from Art how an idea can be elegant, which is why he is always looking for pure and synthetic concepts.

He loves the idea that his job is a continuation of what he used to do when he was a child: to play around with anything he found and to create what his mind imagined. Nowadays, seeking the aesthetic component and the concept, he gets his ideas from the same sources he created when playing as a child, daydreaming with what is usually around him every day.

MONSTERS MELAMINE COLLECTION

GIANPIERO

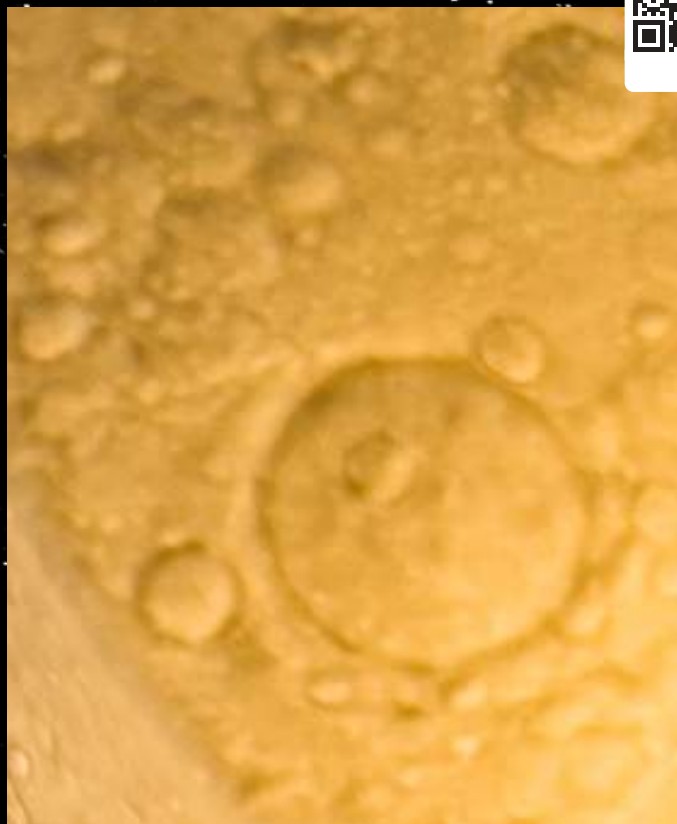

Designer, artist, graphic designer or more simply: creative mind, Gianpiero D'Alessandro was born in 1991 in Sant'Anastasia in the province of Naples.

Starting from his bedroom, he collaborated with high-end brand and profile such as Snoop Dogg, Netflix, Nike, Levi's, Dolce & Gabbana and Drew House, brand owned by Justin Bieber in the role of creative director since 2019.

He founded his own brand with Justin Bieber called inBetweeners, one of the most important projects ever done in metaverse. A modern self-made man, self-taught and influenced by Walt Disney and Andy Warhol, his art emerges from the dialogue with the context in which he lives, but also from the encounter between reflections, emotions and feelings.

With its fresh, colorful style and direct, Gianpiero explores the visible and the invisible of each of us, making us feel grown up, but at the same time still a child.

CTRLZK

The studio operates internationally in the field of contemporary art and design with a creative vision which is not limited by a specific framework developing thus work that ranges from product and space design to case specific art projects and installations. With the use of semiotic tools within the creative process the studio proposes forms which surpass common aesthetic values working on a cognitive level.

The concept behind each project is to inspire a responsible awareness through the "added value" that art has for society with a special attention to issues of environmental impact.

DIESEL LIVING WITH SELETTI

The collaboration between Diesel Living and Seletti is an explosion of personality for homes and interiors; a mix of industrial style, dark and adrenaline filled rock & roll with a splash of bright-toned, mischievous pop.
